

# MIGRANT WOMEN'S DEATHS IN 2017

Since IOM's Missing Migrants Project began collecting data in 2014, it has recorded the deaths of

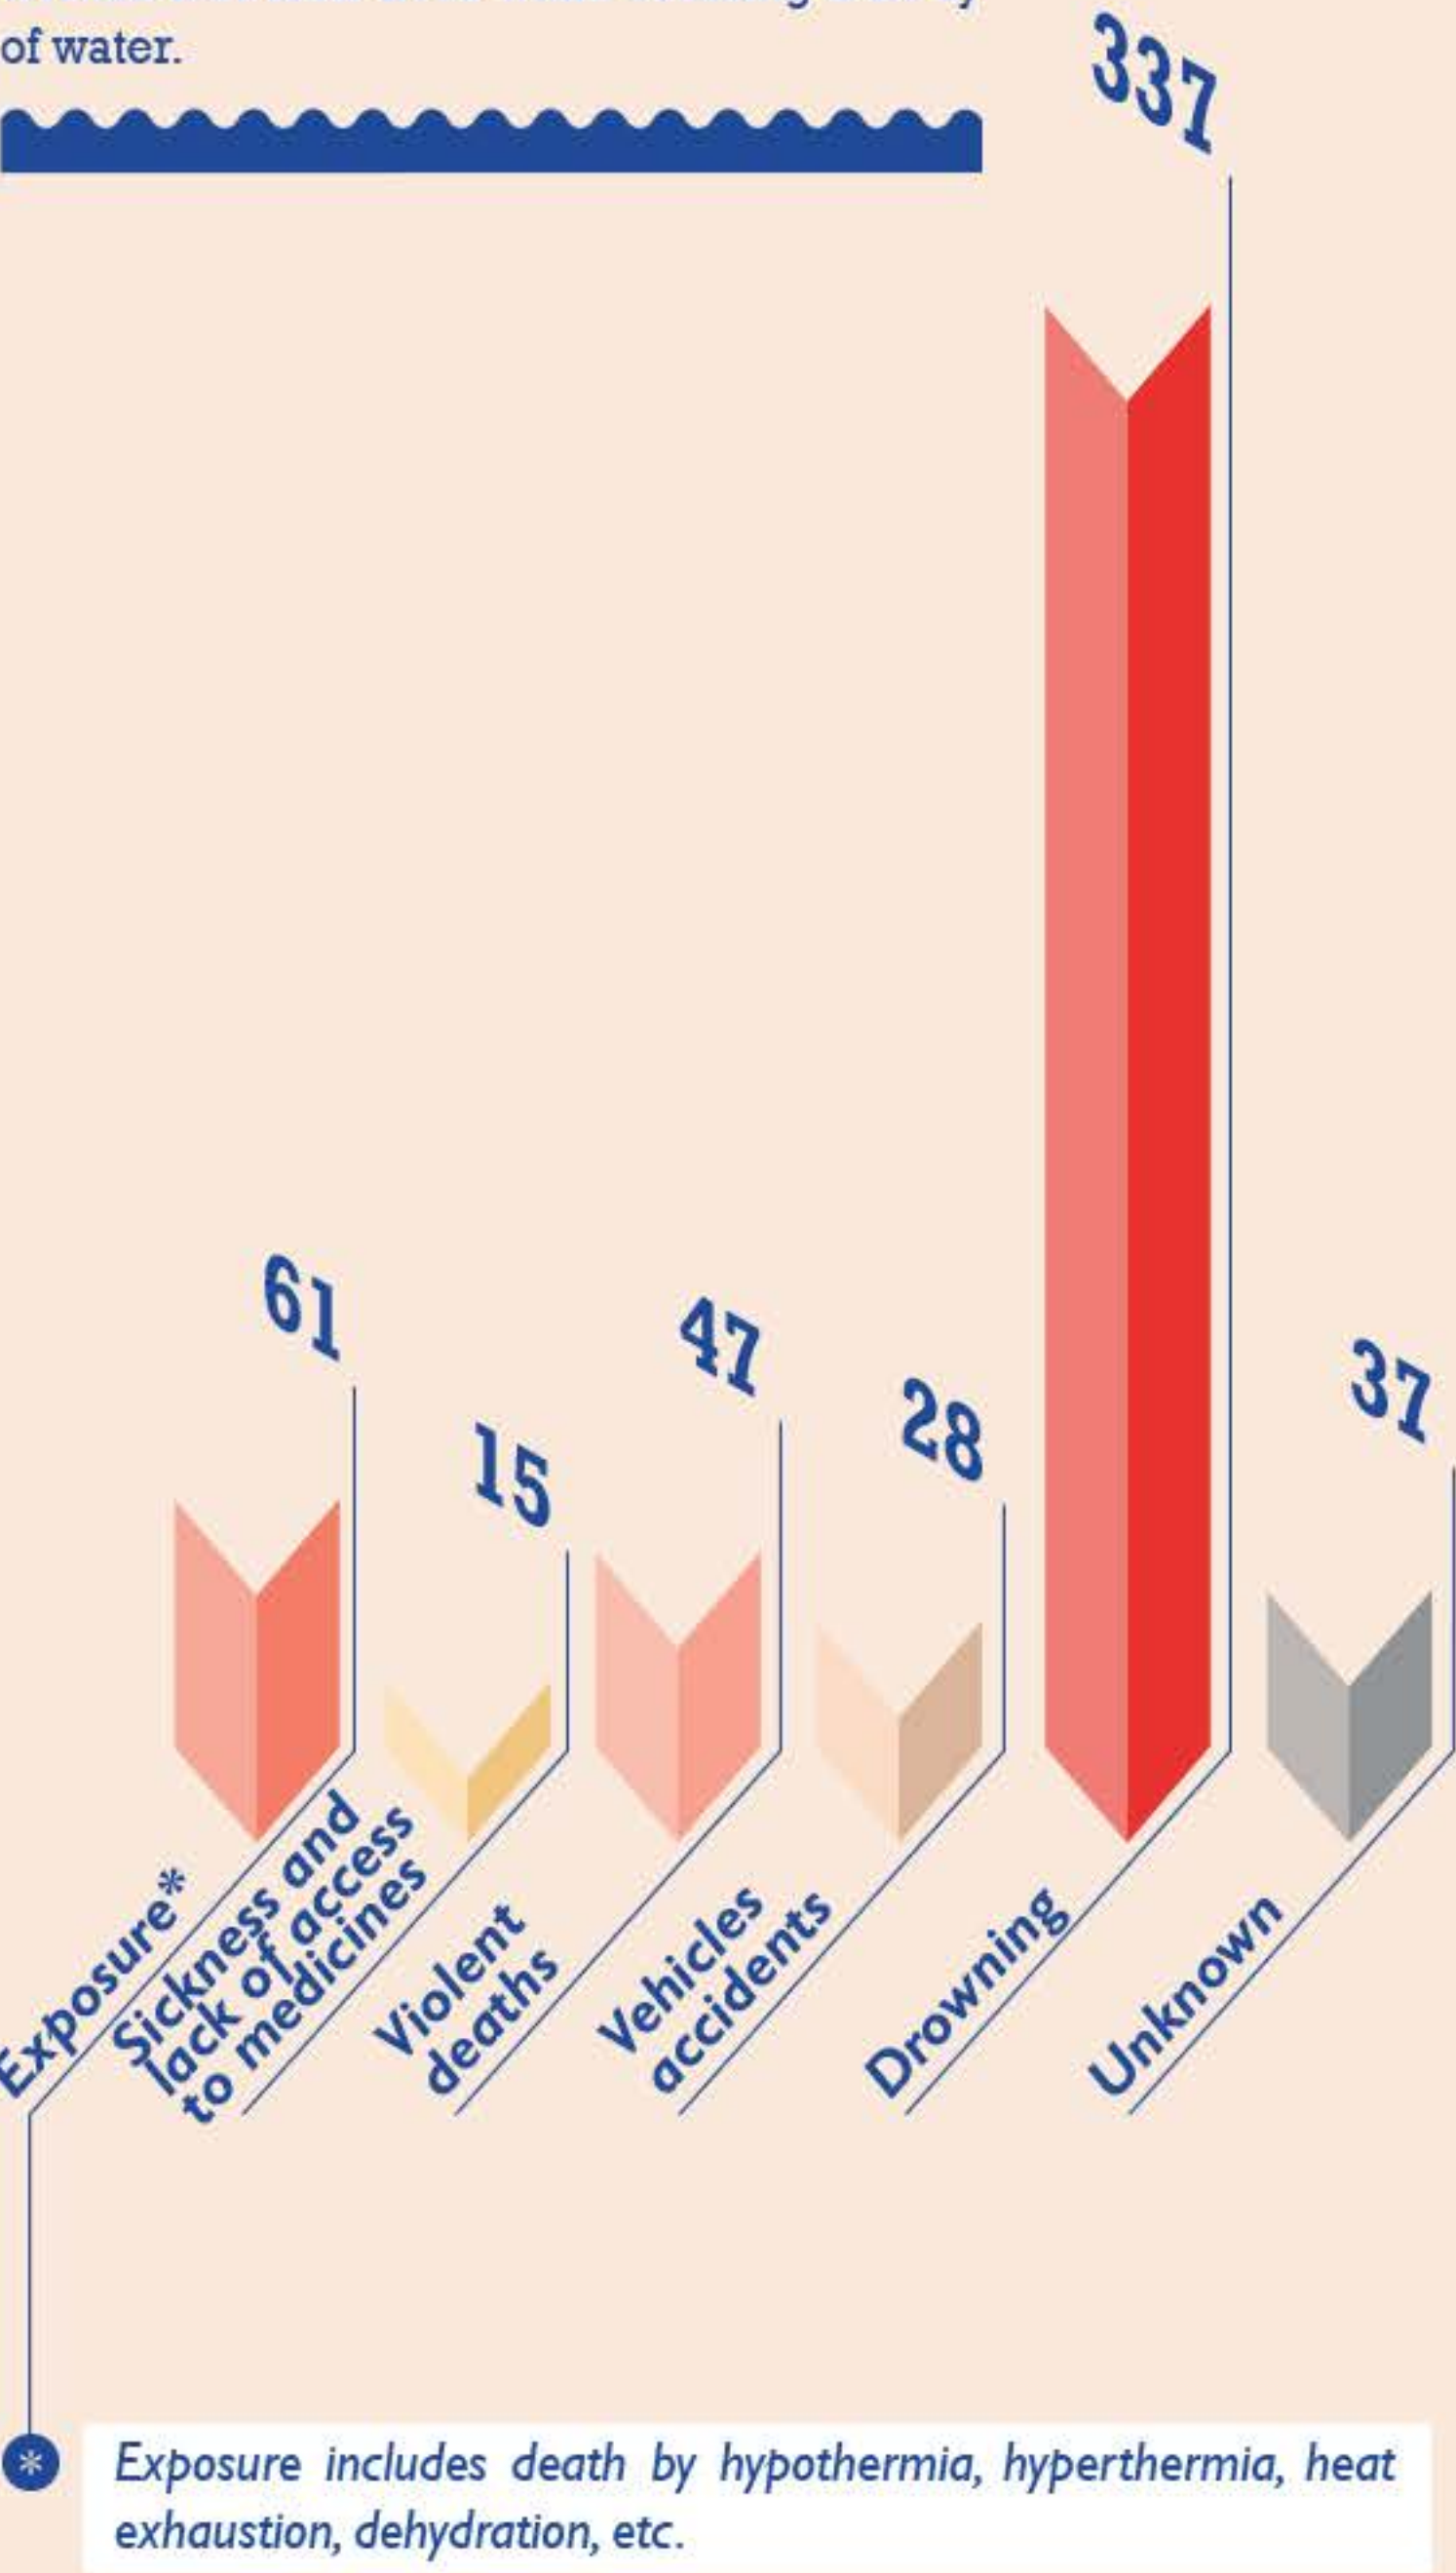

## DEATHS BY REGION OF ORIGIN

## DEATHS BY CAUSE

The vast majority of recorded migrant women's deaths were due to drowning – 337 women lost their lives while crossing a body of water.

As many deaths of women occur at sea, and in large numbers, the identities of those who die often remain unknown.
